## School Profile

### Purpose
At Harrietville Primary School, our vision is to develop **respect** within children, who **engage** in their learning, aspire to **achieve** their personal goals and become connected members of the **community**.

### Values
Harrietville Primary School is guided by values held by the school and its community:

- **Community** – connecting in relationships, participating and linking with the community and the world
- **Achieve** – aspiring to acquire new skills and knowledge, to design and produce
- **Respect** – of self and others, learning and property through honesty, inclusion and responsibility
- **Engage** – in learning by thinking and questioning, experiencing and endeavouring

### Environmental Context
Harrietville Primary School, founded in 1866, is located in the picturesque mountain village of Harrietville, 25kms from Bright, at the base of Mt Hotham in North-East Victoria. As the sole provider school within Harrietville, enrolments are entirely procured from the local township, which, at the 2011 census, had a population of 402. At the commencement of 2015, the school had an enrolment of 11 students increasing to 13 at the end of term 2. The Student Family Occupation index is 0.39, as at the end of 2015.

Local business owners do not have primary aged children, accounting for low enrolment numbers and there is no bus service to enable students from bordering towns to travel back into Harrietville. It has therefore, been a school and community priority to forge strong connections with other schools within the cluster through combined academic, sporting and social events, as well as camps and excursions.

### Service Standards
The school’s aim is to provide a personalised, supportive and engaging environment, in which students strive to achieve to the best of their ability. Maintaining strong connections with the community, developing leadership skills and providing every child with every opportunity are priorities in the development of our students to become well balanced and respectful community members. Links with community are strengthened through many local events including the Harrietville School Duck Race in association with the Harrietville Historic Society Bush Market, the annual “Art & Pizza” night, Harrietville Half Marathon and the Harrietville Music Camp organised by the Whitehorse Orchestra.
The school has an active Parents and Friends association who fundraise year round. In 2016, in collaboration with the community, the school will celebrate its 150th birthday and the P&F group has commenced celebration organisation and management.

The school is divided into two classes, which consist of a Foundation – Year 2 class, and a Year 3 – 6 class. Personalised Individual Learning plans are developed and maintained for every student and the school strives to provide a rich and engaging curriculum. Core curriculum programs strongly focus on Literacy and Numeracy, and specialists subjects such as ICT, German, Science, Library (MARCs) and Art (MACCs) are delivered as part of the timetable. We also have a diverse variety of extra-curricular programs including:

- Skiing program
- Music lessons
- Swimming/Tennis program
- Cluster Camps and Excursions
- Kinder Club
- Pre-prep program
- Gardening/Cooking
- Sporting Schools

We have recently cultivated a permaculture and sensory garden, initiated a Kinder Club and developed an engaging website showcasing our school.
# Strategic Direction

## Achievement

Achievement refers to both the absolute levels of learning attainment and growth in student learning that schools strive to support.

While recognising that literacy and numeracy are essential foundations for students’ success, achievement outcomes encompass a broader view of learning, spanning the full range of curriculum domains, as well as students’ co-curricular achievements.

## Goals

Goals are aspirational statements. They define what outcomes the school is striving to achieve. Goals evolve from the school’s purpose, values and context and build on the analysis of student outcomes undertaken through the self-evaluation and review processes.

<table>
<thead>
<tr>
<th>Goals</th>
<th>To improve student learning outcomes in Literacy and Numeracy.</th>
</tr>
</thead>
</table>
|       | Literacy – Increase the percentage of students achieving a grade of C or above from 97% to 100% and a grade of B & A by 15%.
|       | Numeracy – Maintain the percentage of students achieving a grade of C or above at 100% and increase the percentage of students achieving a grade of B & A by 15%.
|       | NAPLAN matched cohort school mean to be at or above the national average.
|       | All students achieving medium-high growth in NAPLAN relative growth domains in Writing and Numeracy. |

## Targets

Targets are defined measures of the successful achievement of the school’s goals. Targets can take a number of forms and may focus on the outcomes achieved by all students, such as the learning growth all students will be expected to achieve, or on the outcomes of a smaller group of students.

<table>
<thead>
<tr>
<th>Targets</th>
<th>1. To build staff capacity in improving student learning outcomes and analysis of student performance data.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2. To build a strong and consistent instructional and teaching practice model.</td>
</tr>
</tbody>
</table>

## Key improvement strategies

Key improvement strategies are the high-level actions that the school will undertake to achieve its goals and targets. They represent the sequential process of change that will need to occur if the goals and targets are to be realised. Key improvement strategies are broad and are likely to take several years to implement successfully and sustainably. Implementation of the key improvement strategies will be documented in detail through the school’s Annual Implementation Planning process.

<table>
<thead>
<tr>
<th>Theory of action (optional)</th>
<th>In accordance with the DET Framework for Improving Student Outcomes, the priority is excellence in teaching and learning. The initiatives will be to build practice excellence.</th>
</tr>
</thead>
</table>
articulated in the Plan. through an exchange of knowledge and approaches, and a focus on curriculum planning and assessment and the evaluation of data to determine future learning programs.

<table>
<thead>
<tr>
<th>Actions</th>
<th>Success criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actions are the specific activities to be undertaken each year to progress the key improvement strategies. There may be more than one action for each strategy. Schools will choose to describe actions with different levels of detail.</td>
<td>Success criteria are markers of success. They are useful in demonstrating whether the strategies and actions have been successful. Success criteria often reflect observable changes in practice or behaviour. To simplify and focus the school's monitoring of progress, only a limited number of success criteria should be set.</td>
</tr>
</tbody>
</table>

**Year 1 (2016)**

To build staff capacity in improving student learning outcomes and analysis of student performance data.

- Ensuring Performance and Development Plans for all staff demonstrate goals that align with the Literacy and Numeracy goals.
- Build staff capacity to triangulate of data.
- Implement a Peer Observation program that provides constructive feedback.

- PDPs for all staff completed, documented and saved to the staff drive, including mid and end cycle comments.
- Develop a process of triangulating student performance data.
- Develop and document a Peer Observation program that focuses on the learning of the students.
- Achievement data indicating Literacy and Numeracy improvement of 4%.

To build a strong and consistent instructional and teaching practice model.

- Establish a process of aligning curriculum planning through consistent curriculum, documentation and teacher work program.

- Use Hume Region Literacy and Numeracy Instructional model.
- Use Words Their Way and 6+1 Traits of writing teaching model.
- Yearly, term and weekly planners maintained on the staff drive.
| Year 2 (2017) | To build staff capacity in improving student learning outcomes and analysis of student performance data. | • Maintain improvement in Performance and Development Plans for all staff  
• Review and extend the Peer Observation program to include external observation opportunities.  
• Continue to ensure that data is collected, analysed and used to improve student learning outcomes. | - PDPs for all staff completed, documented and saved to the staff drive, including mid and end cycle comments.  
- External Peer Observation program developed with surrounding schools.  
- Continued reflection on, and triangulation of student performance data that leads to effective planning.  
- Achievement data indicating Literacy and Numeracy improvement of 4%. |
| To build a strong and consistent instructional and teaching practice model. | • Maintain the process of aligning curriculum planning.  
• Continue to build on explicit teaching practices in maths and writing. | - Agreed whole school documents in curriculum planning saved to staff drive. |
| Year 3 (2018) | To build staff capacity in improving student learning outcomes and analysis of student performance data. | • Reflection and evaluation of progress.  
  Further actions determined end of Year 2. | - Achievement milestones to be determined.  
- Achievement data indicating Literacy and Numeracy improvement of 4%. |
| To build a strong and consistent instructional and teaching practice model. | • Use Literacy and Numeracy models.  
  Further actions determined end of Year 2. | - Instructional models and approaches are being used effectively. |
| Year 4 (2019) | To build staff capacity in improving student learning outcomes and analysis of student performance data. | • Analysis growth through data.  
  Further actions determined end of Year 3. | - Achievement data indicating Literacy and Numeracy improvement of 4%. |
| To build a strong and consistent instructional and teaching practice model. | • Review the Literacy and Numeracy models.  
  Further actions determined end of Year 3. | - Instructional models and approaches are being used effectively. |
**Engagement**

Engagement refers to the extent to which students feel connected to and engaged in their learning and with the broader school community.

Engagement spans students’ motivation to learn, as well as their active involvement in learning.

Engagement also refers to students engagement as they make critical transitions through school and beyond into further education and work.

</tr>
</tbody>
</table>

- To enhance student engagement in their own learning.

- Attitudes to School Survey: Teaching and Learning scores to increase from 1<sup>st</sup> quartile to 2<sup>nd</sup> quartile or higher.

- Attendance data maintained at 90% or above.

- Parent Opinion Survey data to be in the 4<sup>th</sup> quartile.

1. Build staff and student capacity to give and receive effective feedback about teaching and learning.

2. Increase opportunities for student voice.

3. Embed the use of 1:1 technology to enhance, stimulate and engage students in their learning.
### Year 1 (2016)

#### Build staff and student capacity to give and receive effective feedback about teaching and learning.

- Develop a whole-school Student Survey that includes responses to *Teaching and Learning* indicators: Learning Confidence, School Connectedness, Stimulating Learning, Student Motivation, Teacher Effectiveness and Teacher Empathy.

#### Increase opportunities for student voice.

- Develop a Student Representative Council.

#### Embed the use of 1:1 technology to enhance, stimulate and engage students in their learning.

- Introduce 1:1 technology in senior classroom.
- Develop a strategy to inform parents about engaging programs and the impact of student absence.

### Year 2 (2017)

#### Build staff and student capacity to give and receive effective feedback about teaching and learning.

- Review whole-school Student Survey

#### Increase opportunities for student voice.

- Maintain SRC and review effectiveness.

### Success criteria

Success criteria are markers of success. They are useful in demonstrating whether the strategies and actions have been successful. Success criteria often reflect observable changes in practice or behaviour. To simplify and focus the school’s monitoring of progress, only a limited number of success criteria should be set.

- Data set collected from in-house Student Survey.
- Data collected via survey to determine effectiveness of technology to stimulate and enhance student engagement.
- Teaching and Learning scores to increase from 1st quartile to 2nd quartile or higher.
- SRC created.
- Parent Opinion Survey data to be in the 4th quartile.
- 1:1 technology in senior classroom.
- Development of information to inform parents of statistical impact on student learning due to absence.
- Attendance data maintained at 90% or above.
- Analysis of effectiveness of data collected
- Teaching and Learning scores to increase from 1st quartile to 2nd quartile or higher.
- SRC an active voice in student learning.
- Parent Opinion Survey data to be in the 4th quartile.
| Year 3 (2018) Build staff and student capacity to give and receive effective feedback about teaching and learning. | • Refine Student Survey.  
• Reflection and evaluation of progress.  
• Further actions determined end of Year 2. | - Student Survey strongly indicates student engagement to their learning.  
- Teaching and Learning scores to increase from 1st quartile to 2nd quartile or higher. |
| Increase opportunities for student voice. | • Refine SRC.  
• Further actions determined end of Year 2. | - SRC effectively represents student voice.  
- Parent Opinion Survey data to be in the 4th quartile. |
| Embed the use of 1:1 technology to enhance, stimulate and engage students in their learning. | • Refine strategy to decrease student absence.  
• Further actions determined end of Year 2. | - Refine Holiday Pack.  
- Attendance data maintained at 90% or above. |
| Year 4 (2019) Build staff and student capacity to give and receive effective feedback about teaching and learning. | • Review the Student Survey at this point.  
• Further actions determined end of Year 3. | - Student engagement data shows improvement.  
- Teaching and Learning scores to increase from 1st quartile to 2nd quartile or higher. |
| Increase opportunities for student voice. | • Review the function of the SRC.  
• Further actions determined end of Year 3. | - SRC functioning as student voice.  
- Parent Opinion Survey data to be in the 4th quartile. |
| Embed the use of 1:1 technology to enhance, stimulate and engage students in their learning. | • Review of impact of Holiday Pack.  
• Further actions determined end of Year 3. | - Student absences decrease.  
- Attendance data maintained at 90% or above. |
## Wellbeing

Students’ health, safety and wellbeing are essential to learning and development. An inclusive, safe, orderly and stimulating environment for learning is critical to achieving and sustaining students’ positive learning experiences.

### Goals
Goals are aspirational statements. They define what outcomes the school is striving to achieve. Goals evolve from the school’s purpose, values and context and build on the analysis of student outcomes undertaken through the self-evaluation and review processes.

To improve student resilience and learning confidence.

### Targets
Targets are defined measures of the successful achievement of the school’s goals. Targets can take a number of forms and may focus on the outcomes achieved by all students, such as the learning growth all students will be expected to achieve, or on the outcomes of a smaller group of students.

- **Attitude to School Survey:**
  - Student Wellbeing scores to increase from 1st quartile to 2nd quartile or higher.
  - Parent Opinion Survey results to align with Attitudes to School Survey results.

### Theory of action (optional)
The Theory of Action explains the rationale behind the key improvement strategies, i.e. how the strategies will achieve the goals articulated in the Plan.

In accordance with the DET Framework for Improving Student Outcomes, the priority is to create a positive climate for learning. The initiative will be setting expectations and promoting inclusion as we work to implement a shared approach to support health and wellbeing of all students.

### Key improvement strategies
Key improvement strategies are the high-level actions that the school will undertake to achieve its goals and targets. They represent the sequential process of change that will need to occur if the goals and targets are to be realised. Key improvement strategies are broad and are likely to take several years to implement successfully and sustainably. Implementation of the key improvement strategies will be documented in detail through the school’s Annual Implementation Planning process.

1. Build staff and student capacity to give and receive effective feedback about feelings of student wellbeing.
2. Increase opportunities for a student wellbeing forum.
3. Further develop processes and programs that support the social and emotional wellbeing of our students at point of need.

- Further actions determined end of Year 3. |
| **Further develop processes and programs that support the social and emotional wellbeing of our students at point of need.** | **Further develop processes and programs that support the social and emotional wellbeing of our students at point of need.** |
| - Refine the delivery of the Bounce Back and Building Resilience programs.  
- Further actions determined end of Year 2. | - Review the efficacy of the Bounce Back and Building Resilience programs.  
- Further actions determined end of Year 3. |

- Student Survey clearly indicates student feelings of wellbeing.  
- Parent Opinion Survey results to align with Attitudes to School Survey results.  
- Student forum effectively represents student voice.  
- The Bounce Back and Building Resilience programs have shown to have developed social and emotional skills in students.  
- Student Wellbeing scores to increase from 1st quartile to 2nd quartile or higher.  
- Student distress and morale data shows improvement.  
- Parent Opinion Survey results to align with Attitudes to School Survey results.  
- SRC has been successful as a forum of student wellbeing.  
- The Bounce Back and Building Resilience programs have helped improve student wellbeing data.  
- Student Wellbeing scores to increase from 1st quartile to 2nd quartile or higher.
Productivity
Productivity refers to the effective allocation and use of resources, supported by evidence and adapted to the unique contexts of each school.

Successful productivity outcomes exist when a school uses its resources – people, time, space, funding, facilities, community expertise, professional learning, class structures, timetables, individual learning plans and facilities – to the best possible effect and in the best possible combination to support improved student outcomes and achieve its goals and targets.

<table>
<thead>
<tr>
<th>Goals</th>
<th>To optimise the allocation of resources (human, financial, time, space and materials) to maximise student learning outcomes.</th>
</tr>
</thead>
</table>
| Targets | Improved student outcomes in Literacy and Numeracy as a result of effective resource allocation.  
Enhance infrastructure and use of facilities for optimal student learning. |
| Theory of action (optional) | In accordance with the DET Framework for Improving Student Outcomes, the priority is to promote community engagement in learning. The initiative will be building communities as we make strategic use of existing community resources and capabilities, and increase the services delivered ‘inside the school gate’. |

Key improvement strategies
Key improvement strategies are the high-level actions that the school will undertake to achieve its goals and targets. They represent the sequential process of change that will need to occur if the goals and targets are to be realised. Key improvement strategies are broad and are likely to take several years to implement successfully and sustainably. Implementation of the key improvement strategies will be documented in detail through the school’s Annual Implementation Planning process.

1. Manage and align resource allocation according to the school goals and priorities and student needs.
2. Ensure workforce planning benefits the school.
3. Utilise staff / parent / community expertise.
